## Top 10 Reasons Families Hire Us

To help plan your academic future, we...

1. Simplify an overwhelming process
2. Stay current with admission trends
3. Maintain relationships with admissions
4. Truly know campus cultures
5. Introduce schools often overlooked
6. Provide 24/7 attention
7. Reduce anxiety
8. Put our hearts into mentoring families
9. Give students an edge
10. Take pride in our success — and yours!

### IT'S A FACT!

Public high school counselors serve an average of 476 students per year — giving each one an average of 38 minutes of college counseling over 4 years

**We give you almost 300% more time — and that's just at our first meeting!**

Our team of educational consulting experts guides students toward their best-fit educational environments at every level —

## College • Graduate School • Boarding School • Local School

Admissions is more competitive and complex than ever. Success comes to that student who stands out, and that's where our educational consulting services play a pivotal role.

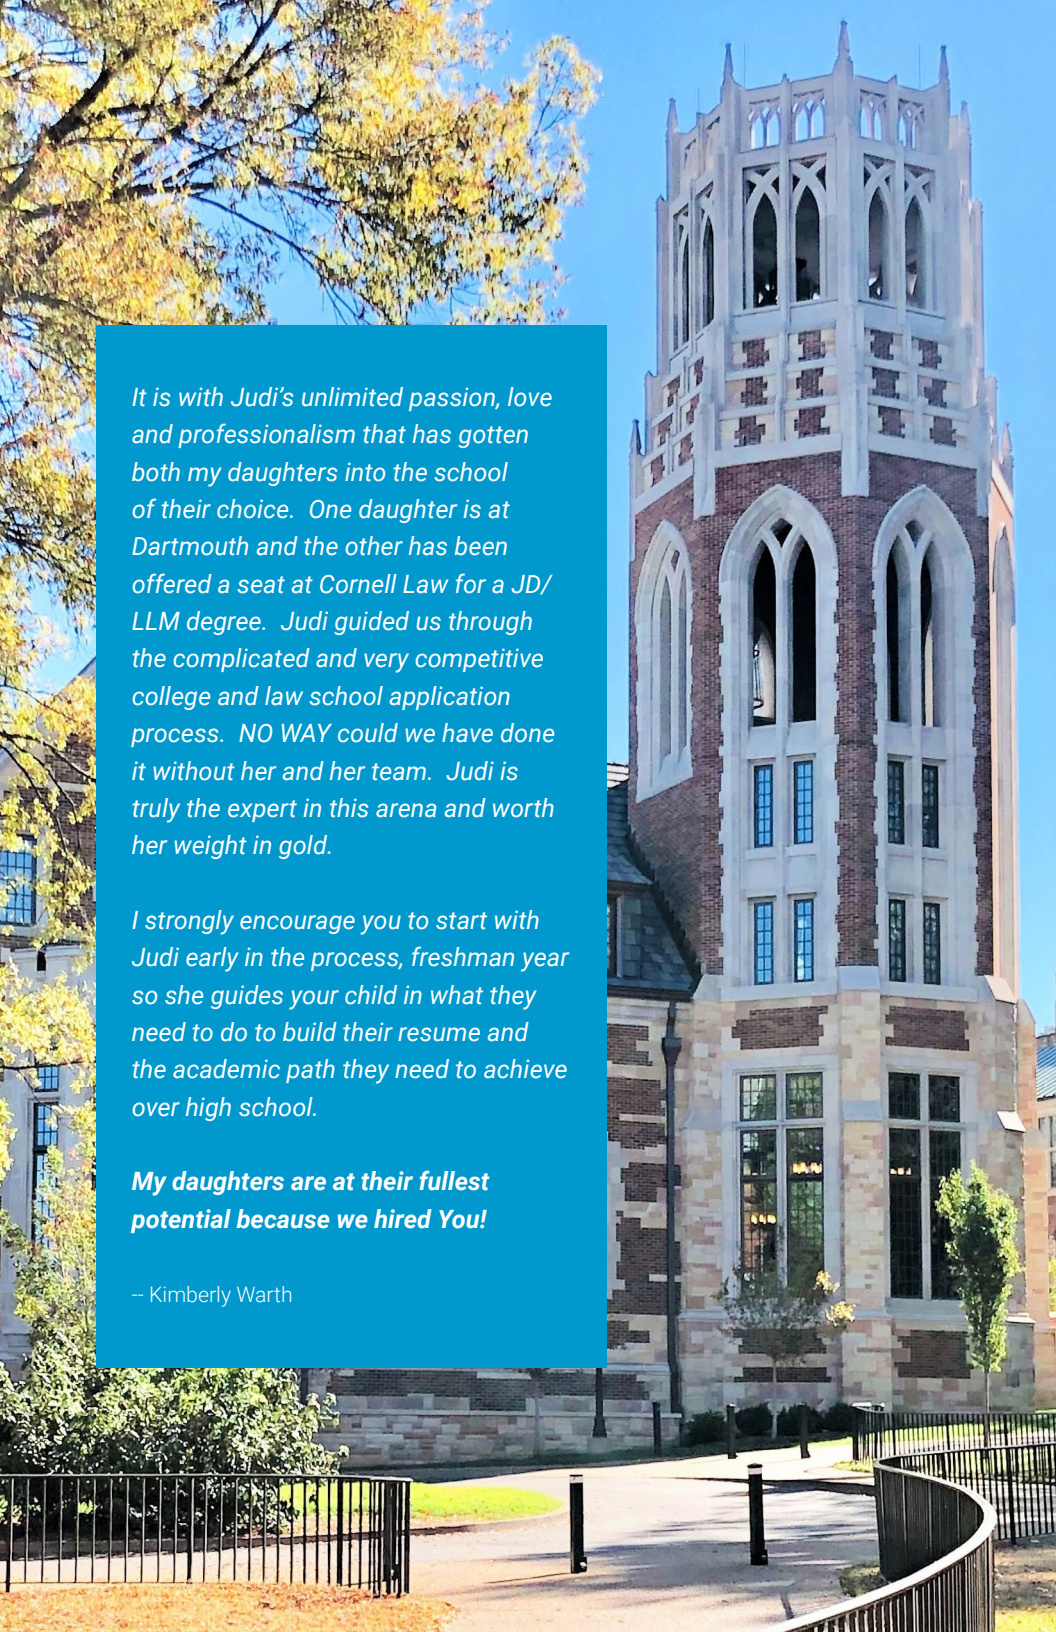

We offer personalized guidance and support that students don't get in school. Our fingers are on the pulse of admissions because we do dozens of campuses annually where we meet with admission officers and students, tour facilities, and learn about current campus culture. Our personal insight can be yours. We'll take you beyond catalogs, guidebooks, and websites.

In a nutshell, we teach our students how to distinguish themselves from other qualified applicants, thus increasing their potential for acceptance. Every year, more than 95% of our students are accepted to their top-choice schools, colleges, and grad schools.

Our experience and first-hand knowledge ensure your that you find and enter a school that best serves your future. From valedictorians to those struggling for academic success, we provide invaluable support.

We also provide placement services focused on therapeutic boarding schools, wilderness therapy programs, residential assessment programs, and transition programs for at-risk adolescents, teens, and young adults

*It is with Judi's unlimited passion, love and professionalism that has gotten both my daughters into the school of their choice. One daughter is at Dartmouth and the other has been offered a seat at Cornell Law for a JD/LLM degree. Judi guided us through the complicated and very competitive college and law school application process. NO WAY could we have done it without her and her team. Judi is truly the expert in this arena and worth her weight in gold.*

*I strongly encourage you to start with Judi early in the process, freshman year so she guides your child in what they need to do to build their resume and the academic path they need to achieve over high school.*

***My daughters are at their fullest potential because we hired You!***

## Application Essays & Extracurricular Commitment that Stands Out!

According to the National Association for College Admission Counseling and the Independent Educational Consultants Association, application essays and extracurricular commitment are the most important factors in college admissions after a student's academic record and test scores.

### Essays

Our college-counseling team has an enviable record of providing inspiration and guidance. Identifying factors that constitute a winning essay, we evoke the best possible essays from our students.

Each student works collaboratively with one of our college-counseling essay experts, brainstorming, writing drafts, and incorporating feedback until each essay is perfected.

### Extracurriculars

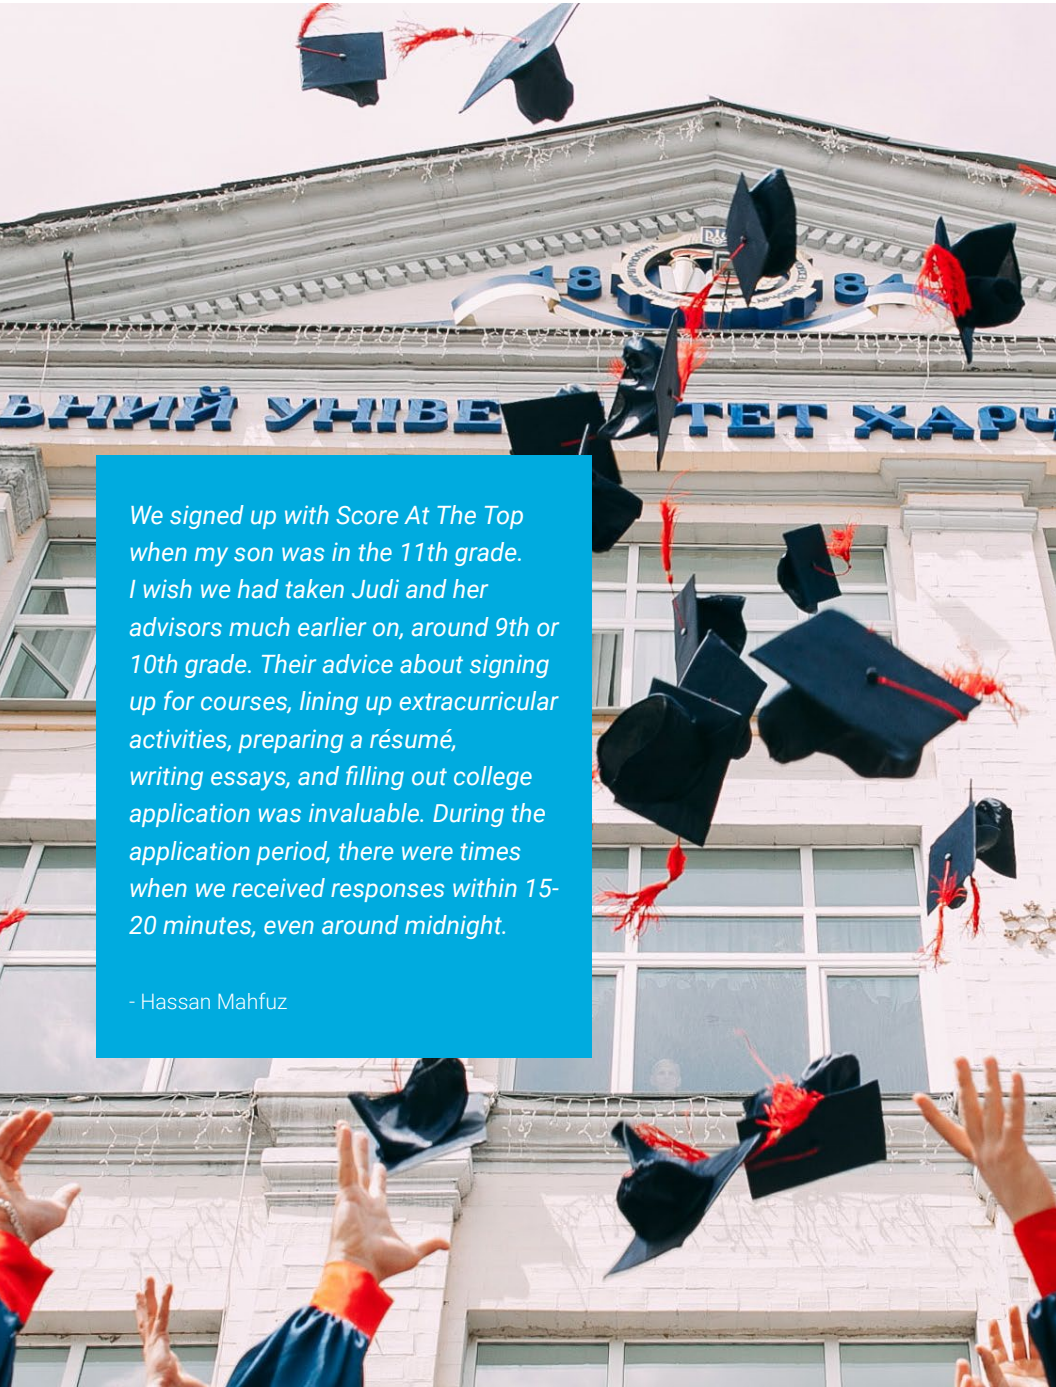

We work with students to explore their interests and identify ways for them to demonstrate them through their own unique extracurricular projects that leave a legacy.

We guide students to develop projects that showcase their interests, initiative, leadership, collaboration, and community impact.

### Creating Perfect Applications

We review all applications before submission and...

- Provide feedback to strengthen every application
- Help a student appear in the best possible light
- Ensure thematic consistency between application, essays, and résumé

## Our Success Stories Could be Yours!

Our students have been admitted to a wide range of colleges, including:

*We signed up with Score At The Top when my son was in the 11th grade. I wish we had taken Judi and her advisors much earlier on, around 9th or 10th grade. Their advice about signing up for courses, lining up extracurricular activities, preparing a résumé, writing essays, and filling out college application was invaluable. During the application period, there were times when we received responses within 15-20 minutes, even around midnight.*
